RE:SUE L. ROBINSON

I SAMUEL T.POOLE,to make a request that this second petition to be dismiss with out any prejudice to the defendan
-ts the defendants case but it will be to me because I made a response to the judge order and to the defendants
petition.

FED.R.CIV.P.12(f).My motion to strike tells everything and it deal with (pain and torture)while I was in there
custudy and on the floor as a pre trial detianee.

this is another way that the defendants try to get out of this case and they still trying to use this fraud
inthe discovery as a part of there defense 98%of there entry of this discobery is to cover up what they done
while I was in there prison system.

this court made a order and then told me to respond in 30 days once you put in for a summary judement you done so
with fraud and i told that it was and you went and serv me with a copy as a part ofyour defense sense the discover
-y was first enter in this case and you are still doing the same thing I was told to enter this as a pro se and you
fill a petition with it I only want the court to make its judgement in this case and let the defendants petition
be dissmis.

THANK YOU
